

SASHA

CONSORCIO INDIA PVT LTD

An ISO 9001:2015 Company

Innovative Automation

A grayscale photograph of a factory floor with multiple robotic arms in the foreground and background. The arms are positioned over a conveyor belt system. The lighting is bright, and the ceiling has a grid pattern with recessed lights. An orange graphic element is visible on the left side of the image.

About us

We are engaged in successful handling the emerging market demands of Automation & Manufacturing of

1. Warehouse Solutions-ASRS
2. Heavy & Structural Fabrication Project
3. Construction Equipment's.
4. Material Handling Equipment's
5. PEB Structure
6. Customized Trolleys & Pallet-Bins Conveyors

Taking due advantage of our experience; we are able to successfully manufacture our range strictly in compliance with relevant industry standards. Further the dedicated support provided by experienced R&D staff also allows us to effectively utilize latest techniques so as to bring necessary improvements in the quality standards maintained in our existing range of product. We also offer our customers the facility of customization so as to match up with their specific end product demands.

Vision

"To be a preeminent Automation, engineering and manufacturing company providing services to clients across the globe, having an immaculate reputation for high quality and timely delivery."

Mission

Committed to delivering valued & professional service, while forging enduring relationship with all clients.

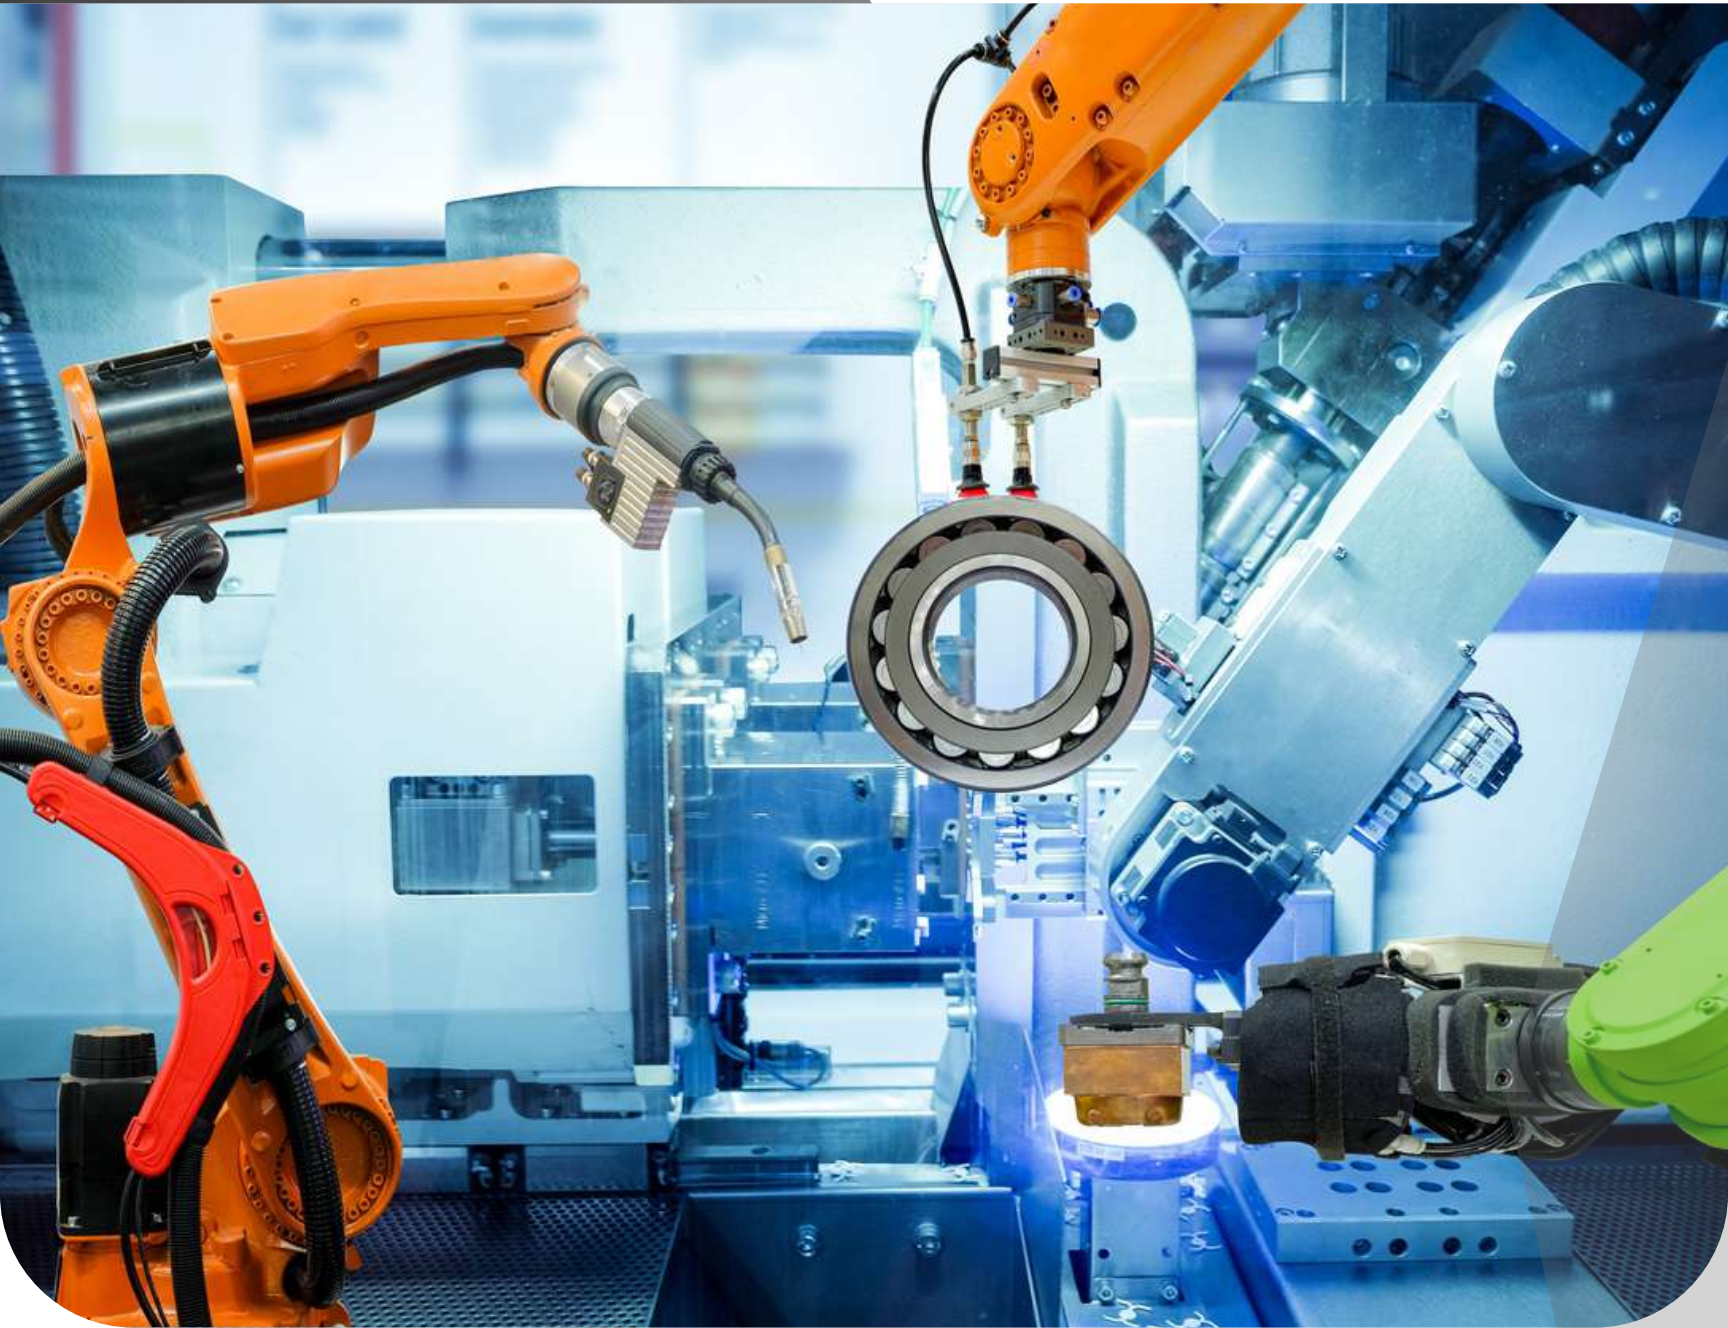

Infrastructure

The company has a state of the art infrastructure spread over a vast area. The production unit of the company has technologically advanced tools and machinery that assist in offering streamlined Automobile Products to the clients. We have 25000 Sq. Ft. plant area in Talawade Area: Pre-Engineered Building area 5000 sq. ft. & Open space 20000 sq. ft.

Electrical Power: 100 HP
EOT Crane Capacity: 05 M. Ton's.

Technical Setup

1. Double Column Band Saw Machine 400 mm Stroke: 01 No's.
2. Radial Drill Machine 40 mm: 02 No's.
3. Welding Machine CO2 MIG 400A: 08 No's.
4. Welding Machine (SMAW) 400A: 02 No's.
5. Welding Machine 200A: 02 No's.
6. Magnetic Drill Machine: 02 No's.
7. Chop Saw Cut off Machine 14": 10 No's.
8. Gas Cutting Set: 02 No's.
9. Pug Cutting Machine: 01 No's.
10. Air Compressor CPS 300E: 01 No's.
11. Broche Cutting Machine 50 mm: 02 No's.

Collaboration Facilities

We are also backed by a network of our dedicated suppliers, with whom we collaborate in order to offload our work & augment the quality & accuracy requirements of our products.

1. CNC Laser cutting & CNC bending machines.
2. Sand Blasting plant.
3. Well-equipped painting & powder coating shops.
4. CNC machine & Tool room for manufacturing precision parts required.

List of Measuring Instruments

1. Surface Plate
2. Vernier Caliper 300 mm: 02 No's.
3. Vernier Caliper 150 mm: 02 No's.
4. Vernier Height Gauge: 01 No's.
5. Measuring Scale: 05 No's.

Quality Control Records

1. Incoming Raw Material Inspection Report.
2. Quality Assurance Plan (QAP)
3. In Process Inspection Report.
4. Final Inspection Report.
5. Records of MTC and lab tests.
6. Welder Qualification Records.

We Offer Our Services To

- Automobile Industries
- Petrochemical & Refinery Industries
- Power Plant & LNG Terminal Industries
- Water Treatment Industries
- Pharmaceutical & Fertilizer Industries
- Beverages & Distillery Industries
- Nonwoven & Textile
- Paint Process Industries
- Conveyor & Material Handling
- Automated Storage & Retrieval System
- Airport
- Mechanical, Electrical, Instrumentation and Commissioning.
- Deputation of Skilled Manpower
- Shutdown and Plant Shifting.
- Manufacturing and Supply.
- Industrial Automation.

Products

1. Warehouse Solutions-ASRS

We offer Automated Storage and Retrieval Systems the most commonly used in manufacturing and distribution facilities. They typically replace large areas of shelving to save floor space, improve safety and increase productivity.

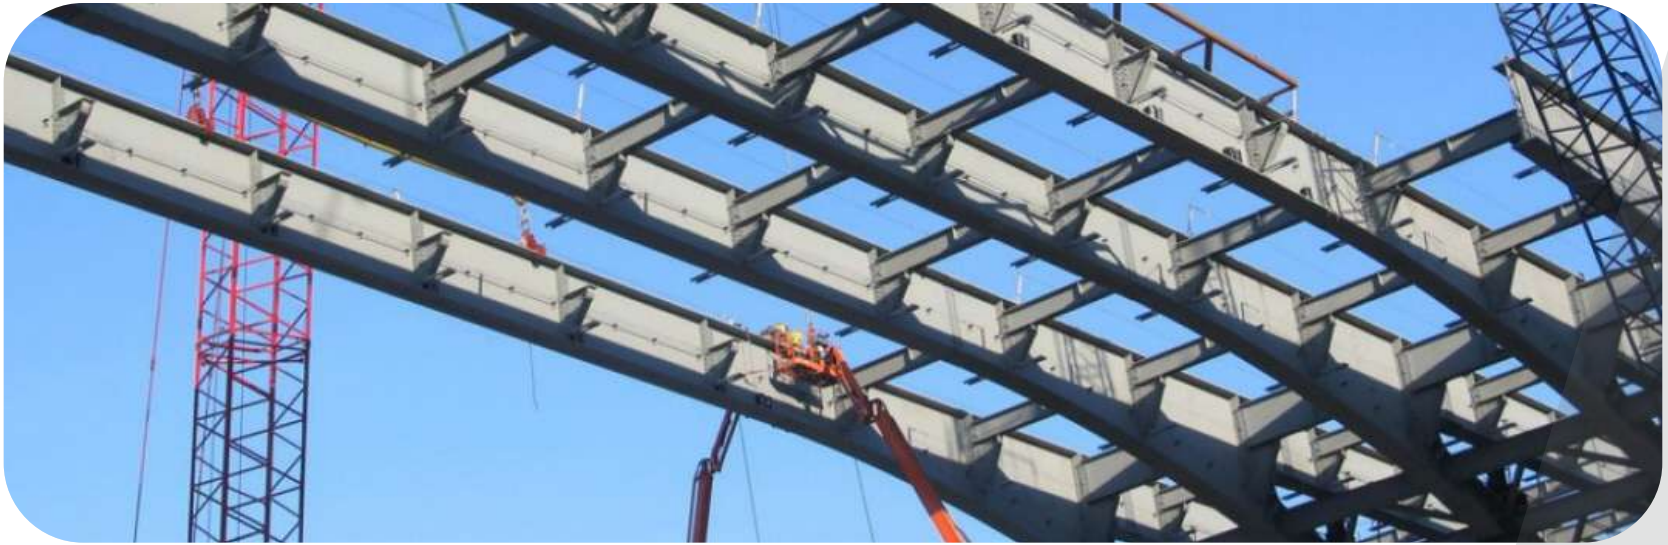

An automated storage and retrieval system (ASRS or AS/RS) consists of a variety of computer-controlled systems for automatically placing and retrieving loads from defined storage locations.

Automated warehouses are efficient, fast, flexible and reliable. ... With automated storage systems, processes such as the storage, retrieval and relocation of goods proceed automatically. This means that warehouse operators do not have to undertake strenuous or monotonous tasks and those errors are reduced to a minimum.

2. Heavy & Structural Fabrication Project.

We are also involved in structure fabrication. We provide highly professionalized Fabrication works for Heavy and Light Structure. With Industrial knowledge and experience of many years, our company has appeared as a dexterous fabricator of structures. Our detailed -engineered variety of fabricated products covers Heavy and Light Industrial Structure.

3. Construction Equipment.

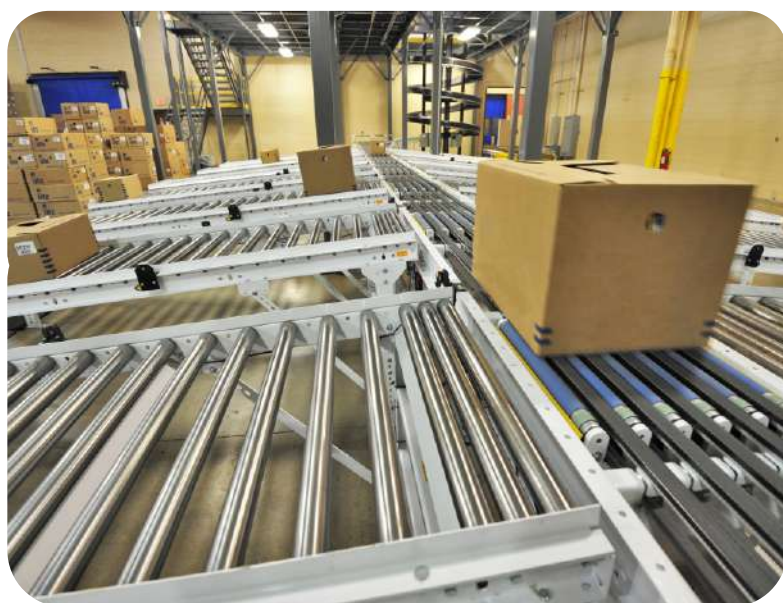

We are the manufacture of wide range of products which include Industrial Silo such as Welded Silos, Bolted Silo, Horizontal Silo, Grain Storage Silo, Fly ash Silo, and Cement Silo.

4. Material Handling Equipment.

MS & Stainless Steel Trolleys are best in moving raw material, finished best and other components from one place to another place. Within the plant zone Sasha Trolleys are the best in design, durability and cost. These trolleys are totally customized according to customer's equipment's and their products.

We offer our services in Automobile, Manufacturing, Food, Pharma, Chemical, Power and Energy Industries.

5. PEB Structure.

We offer specification take up erection work related to Pre Engineered Buildings & Roofing Cladding sheet with all accessories.

We design, fabricate & erect building to suit all segments, be it industrial, institutional, residential, site, site offices, commercial establishments, storage sheds & warehouses.

6. Customized Trolleys & Pallets-Bins Conveyors.

Pallets & Bins are ideal for storage & moving heavy material. Sasha pallets & bins are heavy duty & reliable. Designed using best grade material. Trolleys are ideal critical solutions for carrying heavy loads from one place to another. Owing to sturdy construction, these are light in weight & thereby ensure complete ease for carrying different products. In addition to this, offered assortment is perfect to use in factories, warehouses, railways workshop, airports & fertilizer plants. Client can avail these trolleys from us in different specification depending upon their precise demands.
